- 5 Pounds of Clay

- 8 Acrylic Paints

- 2 Sculpting Tools
- Paint Brush
- 6 Clay Cutters

- 3 Scent Droppers

WORKING WITH AIR-DRY CLAY

Tips & Tricks Before You Start

.....

WORKING WITH CLAY:

- Clay will pick up your fingerprints while you work. Keep a small cup of water nearby to dip your finger in and smooth imperfections.
- Be careful to not oversaturate your project, as water will increase drying time.

DRY TIME:

- Air-dry clay can take from **24-48** hours to dry completely. You can use a wet paper towel to keep your project moist while you work.

PAINTING:

- Finish your project with paint when the clay is completely dry. Add a second layer of paint to make your colors even more vibrant. Use a permanent marker to add fine details.

PROTECT & STORE:

- Use wax paper to protect your surface and easily remove the clay while you are working. Wrap any unused clay in plastic and store it in a container to prevent it from drying out.

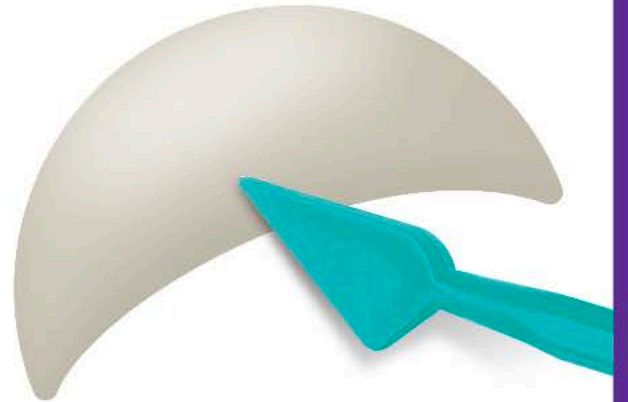

TOOLS & TECHNIQUES

Use the included clay tools to help sculpt & define your creatures!

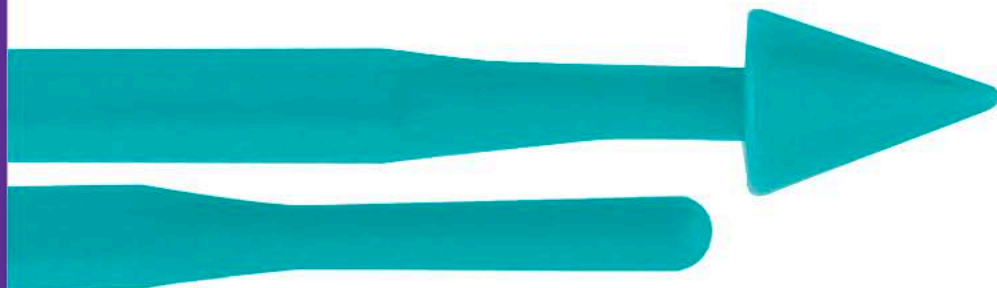

CUT & CARVE:

Use this tool to **cut** large pieces of clay and **carve** large holes.

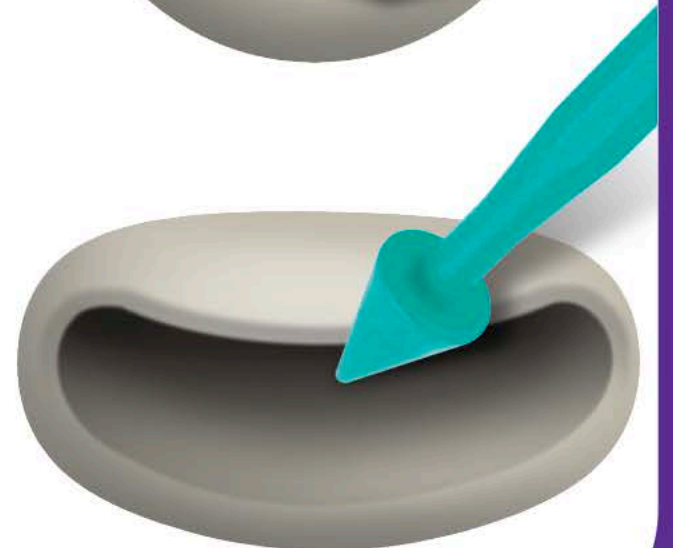

PATCH & DEFINE:

Use this tool to **patch** seams, **define** edges and add details.

HOLLOW & SMOOTH:

Use these tools to **hollow** out large holes and **smooth** rough edges.

CUTTERS & SCENTS

Use the included clay cutters to help cut basic shapes!

STAR CUTTER

Use this tool to make multiple spikes at the same time.

EGG CUTTER

Use this tool to help make arms or legs.

CIRCLE CUTTER

Use this tool to make spheres for eyes and spots.

SQUARE CUTTER

Use this tool to help make teeth or fun accessories.

TEARDROP CUTTER

Use this tool to make ears, crazy hair or other pointy features.

HEART CUTTER

Use this tool to help make arms or fun accessories.

Customize your creature scents!

Add a few drops of your favorite scent while molding your clay to create sweet creatures!
