

MAKE YOUR OWN D.I.Y. Neon SIGN KIT

8+

WARNING:
CHOKING HAZARD - Small parts.
Not for children under 3 years.

GENERAL USE:

- Adult supervision is recommended.
- This product is for indoor use only.
- Keep product away from moisture.
- Please read all instructions before use.
- Retain these instructions and packaging for future reference.

CONTENTS:

10' Neon Wire & Battery Pack

10' Shaping Wire

5 Adhesive Wire Clips

18 Micro Zip Ties

1 Adhesive Strip

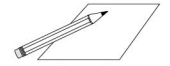

NEEDED:
(not included)

2 AA Batteries

Screwdriver

Pencil and Paper

SETUP

YOU WILL NEED:

Watch our video tutorial at
www.youtube.com/ArtSkills1

1 DESIGN THE SIGN

Draw out your design* on paper at the size you want.
***TIP: Use the letter guide on the back of this sheet.**

2 CHECK SIZING

Take the neon wire and loosely compare to your design. Adjust the drawn design if it is too big or small.

3 BENDING THE WIRE

Straighten a length of shaping wire from the coil. Bend the straight wire into the shape of your design.

4 BENDING THE WIRE

Continue bending the shaping wire into the shape of your design. Bend and hide extra wire.

5 NEON WIRE

Align both ends of the shaping and neon wire. Run neon wire over the bent shaping wire.

Use the zip ties to hold both wires together.

6 WHERE TO ADD ZIP TIES

Attach both wires together with a zip tie at specific areas.

Count out the number of areas on your design and plan where to tie together.

7 SECURING ZIP TIES

Continue attaching wires with zip ties until design is complete.

BATTERIES

YOU WILL NEED:

Slide off the cover off the battery pack as shown.

Load 2 AA batteries into the battery pack as shown.

Close battery pack by sliding on cover.

Note: Do not mix old and new batteries. Do not mix alkaline, standard (carbon-zinc), or rechargeable (ni-cad, ni-mh, etc.) batteries.

OPERATING LIGHTS **REMEMBER:** Turn off when not in use!

Press the button once to turn on (A). Light should turn a solid color. Press button again to set to Fast Blink (B). Press button again to set to Slow Blink (C). Press once more time to turn off (D).

HANGING THE BATTERY PACK

Hang battery pack using the clip. If there is nowhere to hang, you can use the adhesive strip. Use a screwdriver to remove screw on plastic clip. Remove clip. Tighten screw back in hole. Attach adhesive strip to hang on wall.

HANGING THE NEON SIGN

YOU WILL NEED:

It is recommended you have two people to help you hang your neon sign.

When attaching the wire clip, slide the shaping wire on the clip to hold as shown.

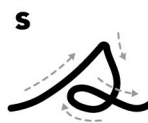

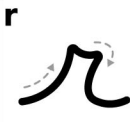

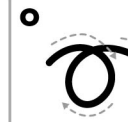

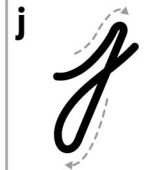

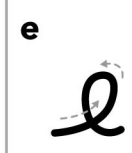

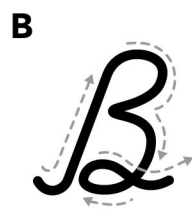

Peel off release paper from adhesive strip on wire clip. Press and hold against surfaces for 30-40 seconds for strong bond.

Distribute clips evenly to hold the weight of your neon sign. Have clips hold at the high and low points.

LETTER GUIDE

Use the following letter guides when designing your neon sign. Practice and write it out before you begin building your sign.

Remember that all letters in your sign must connect to the next letter.

SHAPE DESIGNS

You can try out these shape designs. Follow the same steps on the other side of this sheet to complete a neon sign.
