

## Painting Leaves and Stems

- Pull brush down for stems
- Vary pressure to create interesting stems

- Pull brush up and back down to starting point to create a leaf

- Load two colors on brush for depth and dimension

## Painting Flowers

- Make loops with the brush around a central point to create petals

- Dip the end of a paint brush in paint to make dots

- Layer petals on top of each other for a dimensional flower

- Pull the brush out from a central point to create simple flowers
